Frequently Asked Questions

What is surplus?

We buy closeouts, inventory overruns, mis-manufactures, and items whose time has not come. We can usually acquire these items on a one-time-only basis. When a surplus item is gone, it is gone. So if you see something you love, best get it now since we may not have it tomorrow. Our website is frequently updated with our inventory. If you see an item in our catalog, but cannot find it online, it means we have sold out of that item. If our stock of the item you have ordered is exhausted we will refund that portion of your remittance. When we can't find surplus, we may carry regular merchandise which we think those interested in learning and tinkering will find appealing, but only if we feel it is good quality at a fair price.

Can I return items?

Yes. We accept all returns without question and will either refund your purchase price or send you a replacement, as you chose. Returns must be made within 30 days of purchase. For complete details, please check the order form bound in the center of this catalog.

What forms of payment do you accept?

We accept Visa, MasterCard, Discover, American Express, checks and money orders. We are sorry to report that we cannot accept CODs, cash, stamps or gold. **If paying by check, please be aware that you are authorizing American Science & Surplus to use the information on your check to make a one-time electronic debit to your checking account. This electronic debit will be for the amount indicated on your check. If you do not have sufficient funds in your account, a returned check fee may be debited from your account. If you have any questions, or choose not to have your check converted into an electronic item, please contact American Science & Surplus at (888) 724-7587.**

Do you have a minimum order requirement?

We regret that the costs of doing business preclude us from processing orders of less than \$10.00 merchandise value (exclusive of shipping and handling). We will return orders of less than \$10.00 merchandise value.

Additional information can be found on the order form bound in the middle of this catalog.

Put'em Where I Can See'em

This isn't the Old West but you can still look stylish in these soft, thin, stretchy very comfortable, washable black face masks. One size fits most. For best results, hand wash and air dry. Manufacturer says they are 95% polyester and 5% Spandex™. We like to think they make a great fashion accessory; perfect for any occasion, but are especially helpful if you get invited to secretive opulent High Society functions.

48002 Reusable Facemask \$4.44/each

Swingin' Desk Toy

Newtonian demonstrator for science teachers. Mindless play for the rest of us. These are shiny, nicely balanced, high-performance examples of the classic Newton's Cradle - a ball on one end of a row of (5) suspended, barely touching balls swings into the others, and the ball at the opposite end reacts to the collision. The 11/16" dia balls in this smallish version (all-metal frame 6-1/2" high x 4" x 4-1/4") will collide about 30 times. Awesome. Even more awesome that we paid someone to count the bounces just for you! (Unpacking note: Less awesome if you just yank it out by the suspension lines and pull a couple of balls loose. Be gentle.)

93847 Newton's Cradle \$11.75/each

Drinking Bird

You're buying the drinks and this wacky, yet debonair, bird with a top hat and plastic base (7" tall OA) can't get his fill of water. Get him started, and he dips his beak into your glass repeatedly. How? Fluid inside his glass body condenses from the evaporative cooling of the water off the bird's beak, making it top heavy and dunking it back into the water. The condensate rejoins the liquid pool in the bird's bulb, and he tips up again. Process continues indefinitely. It works, but it's not any more than moderately well made, and not any more than moderately priced. **WARNING!** The fluid and dye inside the bird can permanently stain, and the bird's glass body can easily be broken. Children are fascinated by the bobbing bird, and the educational possibilities are great. But they should watch him, not fondle him!! Manufacturer warning states this item is not intended for children 8 and under. **WARNING:** CHOKING HAZARD-Small Parts. Not for children under 3 yrs.

This Fruit's Out Of This World

Astronauts do not live on freeze-dried ice cream alone. These inter-galactic fruit packs feature freeze-dried banana or peach slices, apple wedges or strawberries, cleverly cut into shapes to look like the real things. Tasty and crunchy in 50-calorie packs, except the bananas, which clock in at an extra-nutritious 90 calories. You'll get (2) different fruit packs. Try 'em on the Lone Ranger's breakfast cereal to make your own Frootish Loops.

97263 Dry-Frozen Fruit \$10.95/pkg(2)

Free-Range Soap!

OK, maybe it's not cage-free, but this bar soap is handmade on an Amish farm in Springfield, Missouri, using Abraham Graeber's family recipe, which contains "no cancer-causing chemicals," according to the package. Because this soap is made by people and not machines, it's good for the earth, too. Our each is (5) giant appx. 5-ounce bars, approx 3-1/2" x 2-3/4" x 1-1/4". (For you youngsters out there, bars of soap are what humans used to use to get clean before there were liquid soap dispensers.)

Got Soggy Sweaters?

Once upon a time, Billy threw his favorite sweater in the dryer and now it's a perfect fit for his troll doll. He could have just hung it out to dry, but then it would have come down to his knees. Be smarter than Billy and save your sweaters with this microfiber sweater-drying towel. Measures 34" x 22" with a textured waffle pattern that wicks away wetness when you roll a wet garment up in it. Material is 100% polyester and machine washable. Air dry.

In gray with white lettering and a drawing of everyone's favorite cartoon burger family—Bob, Linda and the kids, Tina, Gene, and Louise—this nice-quality shirt is long-sleeved and 100% cotton. The size is large, and if large is too large, shrink it in the dryer or just wear it to bed.

48676 Bob's Burgers Tee \$8.75/each

Brush Like A Panda

You'll feel as cute as a giant panda when you brush your teeth with these bamboo toothbrushes. Soft bristle, biodegradable and BPA-free, because what does bamboo know from diphenylmethane compounds? 48267 Bamboo Toothbrushes \$7.50/each

Backscratching In The Dark

It's always a problem finding a telescopic backscratcher in the dark, and when you do, it's usually asleep. We recommend this one, with a glow-in-the-dark creepy hand on the end of a stainless-steel, four-draw collapsible shaft. Measures approx 8" collapsed, and extends to 22-1/2" of back-scratching ease.

96759 GITD backscratcher \$2.95/each

Soft Touch

And easy to store. One of the better pick-up tools we've seen. Folds to just over 16" to store, but locks open at 30" with spring steel arms on an aluminum frame. It has soft, suction-cup-shaped grabbers and big, locking pistol grip. Pretty good gripping capacity too—maybe to 10 lbs or so. Get one for Mom, because at her age she can't reach the things she used to. And then get another one for yourself, because you'll be Mom's age before you know it.

Copper Is The New Kale

In flexible copper, 6-5/8" x 7/16" x 1/16" with 3/16" dia magnets on the ends, this bracelet is flexible enough to fit all wrists. Might be good for you, might just look good. Front of the package says the combo has been believed to relieve arthritis and rheumatism since Roman times but the back says it's definitely not a medical device. F. Scott Fitzgerald said "The test of a first-rate intelligence is the ability to hold two opposed ideas in the mind at the same time." He probably would have bought some of these bracelets.

Back Down?

That's a bad back joke, which is no joke. These Dr. Ho hard plastic back braces are the same ones you've probably seen on the TV, curved to hold your spine in the correct position. We've got both pieces, front and back, but no straps to tighten them. You could add your own, or do as Pat does and put the back piece on your chair for the relief it provides. We've got medium (fits Pat's 6-foot x 180-lb frame) and large (fits an interior lineman-sized copywriter).

47924 Dr. Ho Large Brace \$14.95/each

Linus Is Retired

The little tyke appeared in 1952, a worried two-year-old looking for a little comfort in a cold world. With Lucy as a big sister, it's hard to blame him. The math never lies—Linus turned 70 this year, and he had to trade in his blue security blanket for a blue and white Social Security Card Blanket. Looks just like the card in your wallet (which you shouldn't carry in your wallet), and measures 68" x 34" in soft, comforting poly fleece. Even has your name on it: John Q. Public. All you add is a thumb.

48303 Social Security Blanket \$12.50/each

Loops For Nails

Get a grip on your nail clip. These 3" long nail clippers have finger and thumb loops built into the arms. Called EZ-Grip, they're much easier for anyone to hang onto, period—but they're also extra-good for anyone with arthritic hands or other grip issues. When you're done clipping, they fold back down for storage, just like standard clippers do.

The Mother Of All Pot Scrubbers

Bigger than baseballs, made of wound-up stainless steel coil springs and tough as rhinoceros jerky, these 100-gram stainless pot scrubbers will make you scoff at those little pads that look like shredded wheat and sound like you need help at sea. Our each is a package of (6) silver scrubbers. Bonus: science fair materials!

Can Colander

Stop pushing those tin-can tops with your thumb, trying to drain the juice from your beans. Get this mega-clever strainer, graduated to fit most standard cans without spilling or cutting your thumb again. Paul calls it pea-perfect, and it's great with pineapple chunks. Measures 4-1/2" dia, and it's stepped down three times to 2-1/4" dia, on a 4-1/2" long handle. Stainless steel and dishwasher safe.

48501 Mini-Strainer \$5.75/each

Spatula Clark

That's a downtown joke. (Petula's still alive, so don't tell her we're still making spatula jokes in America.) This 10" long stainless steel spatula has a 4" serrated edge for cake, pizza, lasagna or mous-saka slicing and serving. Dishwasher safe and with a hanging loop.

48304 Steel Spatula \$4.95/each

Flat Mats

Let's cut to the chase here -- buy these the first time you read this, or they're going to be gone! There aren't that many of these flexible chopping mats, and the versatile 15" x 12" x 0.024" thick mats are not only ideal for small kitchens where every inch counts, they're great for any kitchen, and for cookouts, camping and picnics. Our each is a set of (2) of the translucent Euro-look mats that protect countertops from sharp knives and fresh-from-the-oven cookies, and protect food from outdoor surfaces. They can be lifted and slightly folded to funnel chopped food neatly into a pot. They're dishwasher safe, and roll up for portage or storage.

35253 Flexible Chopping Mats \$2.25/each

FOOOOOOOOOOOOOOOOOOOOORk

This is a stanard 4-tine fork with a non-slip handle to prevent fork tragedies, except that if you pull the end, it extends like a antenna from 10" to over 2 feet long. Called The Mocher, it's made for stealing food from your extended family's plates. Across the table. But seriously, it's quite solid even when fully extended, so we'd roast wienies or marshmallows with it, or toast crumpets in the fireplace in our Oxford digs if we ever get a Rhodes Scholarship.

97257 Extendafork \$4.95/each

Not The Sharpest Knife In The Drawer?

Not you—we were talking to your favorite kitchen knife, or the one that used to be your favorite before it got dull, and it said yes, it's not the sharpest knife in the drawer. It's depressed, and it wants you to buy this Mozzbi tungsten and ceramic 2-stage sharpener. Self-adjusting for anything from paring knives to chef's choppers, it can be used on any straight knife. A few pulls through the coarse side, and same on the fine side, and you'll be slicing like d'Artagnan through Cardinal Richelieu's guards. Too soon?

48121 Self Adjusting Sharpener \$9.50/each

NEW!

Measuring Matryoshkas

These cuties are like Russian nesting dolls, except they have kewpie-ish faces and they're a set of measuring cups. In all-white, heavy, food-safe plastic, the tops hold 1, 2/3, and 1/3 cup, and the bottoms hold 3/4, 1/2, and 1/4 cup, all labeled inside. Pat says they'll "doll up your kitchen," but the rest of us don't like to encourage that sort of humor. Aw, who are we kidding—of course we do!

97351 Nesting Doll Cups \$11.95/each

Rotten Peaches?

Not if you store them in this double produce basket with wide-open bottoms to let air circulate and prevent mushy fruit. In bright chrome, it measures 14-3/4" x 14-1/4" x 11" tall with a 10" x 9" top basket and an 11" x 11" bottom. Both baskets swing, like banana hammocks, and we know how much bananas like to swing. Kiwis and green peppers, too. Half the retail price, and no need to thank us. A tiny bit of assembly required.

48305 Wire Produce Basket \$13.50/each

NEW!

13" Flat Screen For \$12.50!

Small for a TV but perfect for keeping the bacon grease from splattering all over your kitchen, and for straining pasta over the sink. Cineastes will recall seeing Jack Lemmon using a tennis racket for just this purpose in *The Apartment*, but we think those holes are too big. Our proper strainer measures 13" dia in finely woven and reinforced stainless-steel mesh. Get a pair so you can always play a little post-prandial kitchen badminton.

48295 13" Splatter-Guard \$12.50/each

Whisk Like A Yankee

Just like the classic Yankee drill, but for the kitchen. Has that "as seen on the television" kinda feel. You push the silver or rubberized handle, our choice, of this 14" long spring-loaded whisk and it spins clockwise on the push, and reverses when you let up on it. The 10-tine head is 2.4" dia at the bottom x 2.25" long, with a little center pin to keep it off the bottom of the bowl or jar or whatever. In stainless steel.

46298 14" Spring-Loaded Whisk \$4.50/each

Dry Your Dishes On The Lawn

Or put a lawn on your kitchen counter, actually. This mega-clever drying rack is made of hundreds of 2" tall grass-like plastic spikes that hold items of different shapes and sizes while they dry. Dripped water collects in the 15-1/2" x 10-1/2" x 1" deep base. The faux grass is in (2) 10" x 7" parts, and it's BPA-free, naturally. Includes (2) 5" bottle cleaners, and a pair of tongs. Our AVPAD--Associate VP for Advanced Dishwashing--finds it particularly good for delicate glassware and lab equipment.

48162 Drying Rack \$14.50/each

NEW!

Goodness Gracious, Great Balls Of Ice

That's the little-known B-side of Great Balls of Fire. It's also this mold for making 1-3/4" dia ice balls just like they put in those cocktails that cost \$25 in places that pretend they're speakeasies. The mold is made of black food-grade silicone, approx 4-1/2" x 4" and makes (4) balls at a time. Goodness gracious! Surplus factor: ignore the 2" dia misprint on the package. The balls also make good catapult ammo for laying siege to snow forts.

48374 Silicone Ice Ball Mold \$7.50/each

Ceramic Is The New Steel

The smart cutters and choppers these days are using ceramic knives because they stay so sharp for so long, and who remembers to have their knives sharpened? Ours measure 7" long over all, with assorted colored handles, a 3" blade and a sheath. Don't go into the kitchen without one. Slice, dice, chop and mince, and forget about sharpening. Like you always do.

43409 Ceramic Knife \$7.50/each

The Box Says Square

When see you a box of Round Plates marked "Square Plates," there's only one thing to do: tilt your head back and shout "Surplus!" We've got a bunch of said boxes, filled with (60) Alpha & Sigma fine china-looking round white plates with silver accent lines around both the edge and that little valley in the middle that keeps food from escaping. They're plastic but you wouldn't know it unless you picked one up. You'll get (30) at 10-1/2" dia and (30) at 7-1/2" dia. Of course they're BPA-free, but don't microwave them. Reusable even though they're marked "Single Use."

48302 Classy Plastic Plates \$24.50/each
Diner's Deal! \$14.50/each

Put A Penguin In Your Fridge

And it'll never smell like leftover pork to mein again. The fridge, that is. We love this 4" tall penguin in the traditional black and white outfit just for the way it looks. But pull off the black silicone top, and fill the hard plastic bottom with baking soda, and the little bugger will deodorize your ice box for no additional charge.

48100 Fridge Penguin \$3.95/each

Make Like Moses Cook

That's who the Internets say invented the apple peeler in 1803, but there are a bunch of contenders, so never mind. Just get this hand-cranked stainless steel peeler and corer and start cranking. This one has a chromed threaded shaft, a three-pronged spike, and is spring-loaded, so it adjusts to fit your apples. Mounts on a 4" dia suction base so it's just dandy for today's granite counter tops. Measures approx 12" long, and frankly, it doesn't care if you use it for potatoes, either. Also provides a non-digital source of amusement for children.

Light On A Cord

You've seen cords on lights—pull the cord, turn on the ceiling light—right? Well, this is the reverse. Tie the cord onto something on the ceiling, pull the bulb on the bottom and it lights up. Seems backwards, because it is, but it somehow makes sense when you want the light on the end of the rope, not on the ceiling, and don't you think you've been doing things right-side-up for long enough? You Can't Slam This Screen Door

But it will still keep the flying critters out of your kitchen. This hanging screen is made of a plastic fabric mesh and will fit doorways up to 36" x 80", but works best in slightly narrower ones to allow some side overlap. Works great on campers, RVs, trailers and the like where you really need to let air flow or buy four and build a giant insect cage that can cover a small tree. Installs with adhesive hook-and-loop tabs and has a weighted bottom, so it won't flap in the wind. Portable, handy and ready for summer. Just like you.

Teeny, Tiny & Real Bright

Think Tinkerbell after you clap. This 17-foot string of teeny yellowish-white LEDs are labeled "Soft Glow," but they seem mighty bright to us. Smaller than a grain of rice and on a bendable wire, they're powered by a USB or a pair of AA batteries (included). Like their big brother LED sets, but much more delicate. We're thinking around windows, shelves, plants, wreaths, small Christmas trees (or trees on any sort), table centerpieces, hats, or even special hairdos.

Time Is Running Out...

Like the days of our lives, the sand in this glass timer is running out. This hourglass is a double teardrop shape with blue sand, and takes approx an hour to empty (nothing was certain in the pre-digital age, my friend), and stands 11-1/4" tall x 4" dia. Comes in a presentation and storage box. The perfect accessory for your next fortune-telling gig.

Desktop Atom

Yes, your desktop is made of atoms (you, too) but this is a 7" dia chrome and black model of an atomic structure (Borovich, Paul says) that keeps on turning via the magic of electromagnetics, at least until the (4) AA batteries you put in it wear out. Stands approx 9" tall on its base. Ignore that "perpetual motion" on the box, unless you have a perpetual battery. Minimal assembly required, but a maximum person like you won't have a problem with it.

Radiometer

Another oldie but goodie. 5" high evacuated clear glass stand 3" in diameter at the top. A four bladed vane is balanced on a needle inside the sphere. Because opposite surfaces of the vanes are black and white, incident radiant energy is absorbed or reflected to a different degree. The result is a spinning vane. The brighter the light, the faster it spins. Simple, but compelling. Brief explanatory instruction sheet included.

SURPRISE!

Mystery boxes of stuff like what you see in the catalog. Maybe we had a little left but not enough to continue the listing. Maybe we only got a few as part of an odd lot. Maybe we lost some, and just found them in the warehouse. You will get items which originally listed for at least \$25.00 total in our catalog (or would have, if we had enough). You pick. The "electro-mechanical" box has things like motors, switches, hardware and components that are useful parts but want to be worked into something bigger. The "consumer" box has more ready-to-go type items, and things that don't have as technical a flavor, like bottles, toys, books, and giant rubber bands. The fun is in the mystery and surprise. Perfect if you don't know what to give Aunt Maude and Uncle Ned, or if you can't decide how to bring your order up to the minimum. What Has Six Legs & Follows You?

Zivko the Robot. Just call her (or him—it's unclear and we don't like to ask) "Zivko" because "the Robot" is her last name. Using just a screwdriver and side cutters, you build Zivko from this 107-piece S.T.E.M. kit. Ready Or Not Skeleton

This skeleton is actually used in medical and other schools for teaching. The bones are plastic, but other than that it's as realistic and anatomically correct as they come. It has a skull with a removable section, hinged jaw and (2) removable teeth; plastic zippered dust cover; and stainless steel wire, brackets and wing nut assembly for long life. It's articulated at all joints except the spine, so you can demonstrate flexion/extension, or merely pose it in a debonair posture.

Bone Up On Anatomy

You're not going to blow money on an actual human skeleton, are you? Consider that for a tenth of the price you can get an anatomically accurate skeleton done in plastic. This model is male (judging by the hips) and has many articulated joints—jaw, shoulder, knee, etc. Its small size (33") makes it practical for classroom use, since it can be passed around the room. Other nice touches include discrete neck vertebrae, a sectioned skull, and very little "flash" from the plastic molds. It also comes with a metal display stand, weighted at the bottom to prevent spills. Yes, some concessions had to be made because of the size and price, but this is still an invaluable teaching tool, and quite a nice decoration for those with morbid minds.

Underpants In A Can!

Emergency underpants in a can. Says it all, doesn't it? Quite stretchable in a Tyvekish white fabric, "one pair fits most adults." They're hip-hugger, semi-bikini, translucent type drawers, so despite the smiling man wearing them and a red bow-tie on the can, some (insecure) guys might find these just a touch jeune fille-ish. "Safe, Sanitary, Secure." Says so right on the 3" x 1-1/2" x 2/3" flip-top metal can. Better buy (3) in case of a long weekend.

Calming Dice

These 2-1/4" foam cubes are for squeezing when you've crapped out once too often. Just like their non-squeezable cousins, they have slightly rounded corners to encourage the roll. These soft dice are missing the 1 dot, tough. What can we say—surplus! On the other hand, you'll know the blank side is always 1, or you could add a dot, or (and we like this option best) you could invent a game where the blank side is wild and you get to pick any number you want. Bonus: every time you lose, you'll be able to squeeze your stress away.

48585 Stress Dice \$4.95/pkg(6)

Not For Your Average Crap Shoot

Slime Is Better Than Lava

It's slimier. This 8" tall lamp looks like a mini version of the famous one with the lava stuff inside, but this one has slime. Colors vary, but all slime is sublime, right? This slime-light has a ball up top that flashes when the lamp is lit, and the clear portion comes off if you want to take the slime out, and who doesn't? Full disclosure: The LED may not work, but the slime is still perfectly slimy.

Puff the Magic AirZooka

Mega-cool toy air cannon. Birthdays will never be the same! The instructions on the AirZooka™ say it blasts a gust (ball?) of air up to 20 feet but we blew out a candle at 30 feet, and it only took us three tries. (And you can hear the near-misses as they blow past—which is the mega-cool part.) Plastic, 11" dia x 10 1/2" deep, like a bucket with a pistol grip and a fold-down sight. The (3) segments unscrew and collapse for storage between birthdays. We'll pick fluorescent blue, green, magenta or orange, and you'll need two if you want to have air wars.

Lesser Sharks And Mini Leviathans

This collection from Wild Republic® has (10) mini whales (a contradiction, but still fun) and small sharks all at approx 3" long. We think the presence of a dolphin and a ray is just the sort of aquatic carelessness that makes this surplus.

Toy Troika

It's a fun three-fer, a troika of terrific toys that we'd buy if we hadn't already bought a bunch of them. First up, a sticky-footed goofy-faced insectoid wall-walker. Throw it at the wall and watch it tumble down. Second, a mumble-mouth game with a plastic lip spreader and a deck of phrases that make you sound ridiculous while other players try to guess what you're saying. Finally, the piece de aero-amusement, a flying, singing penguin, exactly like our classic flying screaming monkey except it's a penguin and it sings. Shoot the little bugger across the room and it sings "I believe I can fly...oh, no...maybe not." Frankly, the penguin is worth the price of admission alone.

48602 Goofy Toy Trio \$5.75/each

A Moveable Feaster

Most of your Tyrannosaurus rex models just stand there, looking all rexyish, but this 4-1/2" tall molded rubber dinosaur model is posable, with articulated legs, tail and jaw. Where Do Giraffes Meet Velociraptors?

Same place the tigers play with the triceratopses—in our warehouse. We've come by a trove of excellent critters from Nature World®, all in hard rubber and mostly measuring 9" to 11" from snout to tail, or jaws to derrières. In this trove we've seen lions, tigers, giraffes, elephants, and more dinosaurs than you could shake a pale-ontologist at. Build a zoo, prehistoric or not, or just ignore science and let the lions lie down with the stegosauruses, and that is too the plural, you could look it up. You'll get (4) different beasts.

Is That A Back-Scratcher...

...in your pocket, or are you just itching to see us? Pure surplus—these small extension back-scratchers were promo items—"Elect Jim Flummer!" or "Nevada Financial Concepts," among many, many others—with ball points at the other end and caps with pocket clips. Don't know what happened to Jim, or in Nevada, but we've got 'em now. Some pen inserts might be gone, they could be any color in the rainbow, and some could use a drop of glue to keep from over-extending when you pull them out. But let's not look a gift (practically) scratcher in the tines. Also dandy for raking the sand in your desktop Japanese garden.

Be More Vacuous

At least pack more vacuous, because vacuum packing isn't just for coffee, it's for saving storage space for anything soft and squoosable. We suggest this 6-pack of 40" x 32" large vacuum-seal storage bags, into which you can stuff pillows and blankets and sweaters and overcoats and stuffed monkeys and any number of other things, then suck out all the air with the enclosed hand pump and watch it shrink by 80% so you can slide it under your bed and forget about it for mold and moth-free years. (OK, it's not a pump, because it sucks, so call it a handy little sucker.) Also dandy for travel because the little sucker doesn't take up much space, so you can shrink your return laundry too--and keep it hermetically sealed. Works even faster with a vacuum!

Eye dropper, tongue dropper, test tube dropper, petri dish dropper, anywhere dropper. Use this 3" glass dropper, with a rubber squeeze bulb to drop small amounts of liquid wherever you think they should go. You will have to measure by counting drops, though, because there are no markings on it. Also, it is called "3" because that is about how long the glass tube is. Overall, it is 4" long.

21st Century Walking Stick

Walking sticks have moved into the space age! This walker's/hiker's friend has futuristic features and the look of an inter-galactic weapon. The high-quality collapsible aluminum stick extends from a packable 27" to a full 43", and has a carbide tip with a rubber cover, a removable 2" dia disk to keep the stick from sinking into soft ground, and an internal shock absorber that can be turned on or off. At the top, a 5-LED flashlight with a 90° pivot is embedded in a molded-plastic cane-style handle to light your way. For mountain trekking, lengthen the stick, slip the adjustable canvas wrist strap over your hand, and clutch the stick by the padded foam section below the cane handle. Directions, diagrams, and 1100mm to 1350mm gradations are marked clearly on the 3-draw pole. We'll pick a black or anodized red, green, blue, silver or purple version for you.

Reel Small

This small, clip-on, retractable cord reel measures just 1" dia x 3/8" thick, in black plastic over steel, with its spring clip on the back. A very thin nylon cord pulls out to reach 18-1/2", with a closed wire loop at the end to hold a key or whatever (think: name-badge holder). Doesn't lock open, so just pull it out and use the attachment, and it automatically retracts when you let go. We had a sixth-grade nun with one of these, but we never knew what the key was for.

The Red Umbrella

Easy to find in the lost and found drawer. Also matches your outfit if you're a Cardinal or Santa Claus. Travel size, measures 11" collapsed and opens to a 41" dia canopy. The little black handle has a pop-open trigger button, as they do. The real beauty of this umbrella comes when you press the button a second time and the top of the umbrella collapses saving you the trouble of messing with that little metal tab. You'll still have to push the body back together to reload it, however. Needless to say we are impressed with this innovation in umbrella technology.

We look at this watch and wonder if Neo himself delivered it. Time will tell. Integrated chain-link wrist-band band is 8" long. Order a 5 pack of replacement CR2016 batteries to last you well into your next quantum leap!

Un-Bunsen Burner

So you don't have a gas jet in the garage? You don't think Margie and Ted are old enough to handle the high temperatures of a Bunsen burner? Our alcohol lamp is the answer. It burns alcohol (available at the hardware store), and is hot enough to boil water, to soften glass tubing for bending, and to generate the chemical reactions generally called for in science projects. The lamp is shaped like a long-necked ink well, 3-1/2" tall x 3" dia at its widest point and comes with a wick assembly and a handy little metal lid/extinguisher.

Insect Inspection

When you peer through your magnifying glass at this specimen, or focus your microscope on it, even at the lower magnifications which work best, you're looking at one big bug. Make that (4) big bugs. Set 1 includes a scorpion, giant ant, wasp and a flower bug. Set 2 is a cricket, locust, yellow leaf beetle, and crab. No, not a crab louse or a crab spider, but definitely a crab ugly. **WARNING: CHOKING HAZARD-Small Parts.** Not for children under 3 yrs.

Cute Tubes

Imagine 1" dia test tubes with a pair of tiny holes drilled opposite each other approx 5/8" from the top. Or don't imagine them, just look at the picture. We don't think they're borosilicate glass, but we could be wrong. Doesn't matter to us anyway, because we just use them to put flowers in and hang in the windows from monofilament. Clever crafters will no doubt create dozens of other uses. We know because Surpie crafters show us their craftiness. Our each is a pack of (12). Clear glass, and you pick the 4" or 6" long tubes.

Watch Out For Hotheads

Easy to do, and important these days. We've been pointing this non-contact infrared thermometers at just about every forehead we see. Reads in one second with a digital display in C or F. Measures body temps of 89.6 to 108.5 F (32.0 to 42.5 C) with a resolution of 0.18 F (0.1 C) and color changing backlit display to warn you when hot is too hot. Normal operating temperature (ambient air) range is 60.8 to 95 F (16.0 to 35.0 C), and the device should be held between 0.4" and 2" inches from those foreheads. Want to fry an egg on your car dash? Switch it over to surface mode to check, well, surface temps. Couldn't be easier to use, or more important in times like these. Plus, when this is all over, you'll never have to stick a thermometer under your tongue, or anywhere else, again. Approved by the FDA as soon as you add a pair of "AAA" batteries.

Titled "The Field and Forest Handy Book," this volume has been justifiably in print since 1906. Written by Daniel C. "Uncle Dan" Beard, the founder of the Sons of Daniel Boone and one of the founders of the BSA, it's a compendium of eternally relevant woodland lore, from building cabins, sleds, boats, and bridges to camping in swamps. Scientifically speaking. This 8-1/2" x 11" science reference notebook is three-hole punched for inclusion in a binder. From McGraw-Hill, it's heavily illustrated and filled with facts, illustrations and definitions about biology, geology, astronomy, physics and much more. Science! Giant Weather Balloon

If the question is whether to tie a bunch of these giant weather balloons to a lawn chair, the answer is no. (They burst at about 82,000 feet anyway.) Besides, this is a true weather balloon, with plenty of fun, nonfatal uses. The cream-colored latex balloon is approx 40" dia when flaccid, you should pardon the expression, but has an 8-foot dia when inflated. The neck is 9" long x 1" dia. Scientists, meteorologists, inventors, teachers and the imaginative filmmaker are warned to launch the balloon carefully. The material is delicate and not made to survive brushes with pavement, pine branches, or clumsy physics students.

2823 Blue/White Donut Magnet \$3.95/each

Neodymium Column

We're liking this little plated N45 neodymium magnet because it will stand on end and stick out very prettily on the ice box. Measures 1" tall x 1/4" square with a hefty, for its size, 3-1/2 lb pull, 13,800 gauss. (Will also lie down on its side, of course, because everybody does.)

95658 Columnar Magnet \$2.95/each

Magnets For Next To Nothing

Although they work best next to steel. You'll get a whole bunch (that's 25) of ceramic magnets at 3/4" dia and either 1/4" thick or 3/16" thick with a center bore approx 1/4". (We'll just grab what's on top, OK?)

89924 Ceramic Magnet Pack \$6.95/pkg(25)

Rare Find!

Rare earth magnets are usually killers for their size, and these thick nickel neodymium discs are no exception. The price, on the other hand, for (3) 7/16" dia x 1/4" 5-lb lift or (2) 9/16" dia x 3/16" 8-lb lift magnets each stored on a 2" dia steel disc, is a rare exception.

93463 Rare Earth 2 Pack \$4.45/each
92042 Rare Earth 3 Pack \$4.45/each

A Lot Of Pull

Pick up this 1-3/4" x 7/8" x 3/8" ceramic pick-up magnet while we still have it. It's in a heavy metal housing and has a stationary metal hoop, about 1/2" i.d., on top. The manufacturer tells us the magnet will grab up to 5 lbs of metal, however Pat and Magnet Testing Team #3 have repeatedly lifted 10+ lbs, so it's very strong. Especially if you're going to dangle it on the end of a cord to gather spilled nails or to fish your keys out of the lake/pond/sewer/drain!

91859 Pick-Up Magnet \$3.25/each

There's A Hole In The Magnet

The 3/16" bore in the center of this small plated neodymium magnet just makes it easier to mount. Measures 3/4" dia x 1/4" thick with a pull of approx 7 lbs. Works great with #6 or #8 flat head screws.

95657 Bored Magnet \$2.95/each

Ceramic Power

Ceramic magnets can be quite powerful and have excellent resistance to demagnetization. These rectangular ones are no exception. Add the power of surplus and we'll give you these mighty-mites for bargain prices. This 3-lb-pull guy is 1-7/8" x 7/8" x 3/8" thick, for mounting bigger pix, we figure.

10584 3-lb Ceramic Mag \$3.25/pkg(2)

Works great with a 6-volt lantern battery.

Get A Horse!

Then get these actual horseshoes. These are not those Clydesdale-sized behemoths your grandfather used to toss at iron stakes. These are more like the delicate steel shoes you'd tack onto a filly's feet before the Breeders' Cup. Measure 4-3/4" long x 4-1/2" across x approx 1/4" thick. If your horse gets scratched from the race, just hang one of her shoes above a door for good luck. (Remember to put the tips up and the curved side down. Otherwise, all the luck will fall out and you'll be...out of luck.)

It'll be a nice change not to know exactly what you're getting, won't it? Buy 'em at the bulk price and resell them. Start your side hustle now!

Mood Sheet

See psychedelic patterns the safe way! Press your hand on this 6" x 6" sheet of liquid crystal and leave a print of swirling colors that, like the mood ring of yore, you can use as a sign of your mood. The pattern will blend and fade in seconds as the crystals react to temperature. Tiny liquid crystals inside the film-like material react to heat by changing colors. As science, it demonstrates the way liquid crystal displays work. And you can cut it into pices to incorporate into a science project. Or just leave it out for guests to play with when the party turns boring.

91582 Liquid Crystal Sheet \$11.95/each

I Will Survive...

You will survive, too, just like Gloria Gaynor, and in the woods, even. But only if you have this U.S. Army manual, cleverly titled: SURVIVAL, Department of the Army Field Manual FM21-76. It's 287 heavily illustrated pages of techniques for staying alive (add your own BeeGee jokes here) including orientation; food & cooking; fire- and shelter-making; rafts; animal, insect and plant recognition; and much more. This is the 1970 edition, but staying alive in the woods hasn't changed a whole lot since then. In soft-cover.

39873 Survival Manual \$11.95/each

Fishnets

Not fishnet stockings, but netting for actual fish, direct from the U.S. Army (you'd think Navy, wouldn't you?) in olive drab. It's a survival thing. You get a 10-foot x 5-foot net made of 3/4" squares individually knotted from twisted cotton/nylon, so the net won't unravel if torn. Might have a slightly musty aroma (but definitely not fishy) that a little sunshine time will fix. Great for maritime-theme decoration, bible-camp plays (filled until breaking, walking-on-water background prop...) or, we suppose, fishing. And perfect if you want to go to a costume party as Poseidon.

Go Hollywood

It's the Hollywood Selfie Pole Monopod, and the name alone is making us go all soft in the middle. Starts out 8-1/2" long and extends to a very sturdy 39" with a camera thread at the end to hold the cell-phone holder. And like many people in Hollywoodland, it probably won't work as intended. The handle was meant to recharge with the included USB cord and connect to your phone with Bluetooth, however we've found that the non-replaceable batteries are mostly non-working or only hold a charge for a few minutes, like a faded actor's career. Sold for the robust stick itself because your arms aren't long enough. And you can always repurpose it for long distant tasks.

48583 Hollywood Selfie-Stick \$5.75/each

A Scosche More Music

OK, we don't know how to pronounce the Scosche company's name, but we like saying a skosh more, so we did. Anyhoo, this Scosche TUNEIT is a digital FM transmitter made to play music over your car stereo. Connect to the output with the integrated AUX cable, find an unused FM frequency on your stereo (the dial is full of them), and you'll be dancing on the roof in a matter of moments. Compatible with Apple iPhones and iPods, Samsung Galaxy, Android, MP3 players or anything with a 3.5mm Aux output. The oversized backlit display is on a flexible neck and has control buttons to scan between (100) radio stations and preset (3) of your favorites.

You Strapped?

Wouldn't you rather hear that than "Is that a cell phone in your pocket...?" Yes, you would, and you will if you strap on this green camo phone holster. Made to strap (we like saying that) to your leg above your knee, like Wyatt Earp's Colt (or any number of the army surplus gas masks we sell), but you can also attach it to your arm or some other handy body part because the two straps extend from 15" to 27" and 10" to 13". The water resistant holster is 7" x 6" with a 5" zipper, and the phone is operable in situ, as it were, through the transparent protective covering. Manufacturer calls it a "Hunter's Phone Holster," but don't let that stop you from wearing it around the neighborhood. Also adaptable, we think, to small dogs.

48097 Outdoor Phone Holster \$7.95/each

Bluetooth Hockey Puck

Rechargeable and portable, the speaker measures 2-1/2" dia x 1-1/2" thick in dark blue with the logo of the bank whose name adorns a hockey rink in Our Nation's Capital. Feel free to cover it up, like the Blackhawks fans in our office did. Rechargeable batteries are lithium, which is better, and it charges via the included USB to micro-USB cord. Comes with a microphone, microSD card slot, and volume control. Sounds good enough for Paul to drown out Pat's ambient Australian heavy metal holiday music.

Beauteous Brass Sextant

Sextants came along after astrolabes but before GPS. (Just like you.) They're used for finding latitude and the distance between objects, and are still the non-electric, non-satellite-dependent back-up for navigators. Ours is a beauty in solid brass with glass optical components, at a tiny price. Measures approx 4-5/8" x 4-1/4" x 3-1/4" OA and comes in a very nice wooden case. Includes instructions for use, which you're going to need unless you went to Annapolis where they still teach it because computers can still go all kaffloey. (Note that well before computers started going kaffloey, compasses and sextants lost an adventurer here and there, too, so don't call us if you and the sextant set out for Madagascar and end up in Iceland.)

Polished glass equilateral prisms. Equilateral because each edge of the end is the same length, 32mm. Thus, as all you geometry students know, each of the angles is also the same, 60 degrees. They do a nice job of refracting light to produce a nice rainbow-like spectrum, but are definitely not up to instrumentation standards. The missing dimension, length, is shown below.

Peltier Heat Pump

High tech comes to Am Sci & Surp!! It is here in the form of a Peltier junction, a thermo-electric device that translates electric power into heat, and perversely, into cool. Apply current at 15VDC to the gizmos and they extract thermal energy from one face, thereby cooling it. The heat is dumped onto the other face, thereby heating it. Please note: you must use a heat sink on the hot side or the junction will fry itself, since it can quickly create a 65° C temperature differential in a no load situation. Stack two, or build a cascade to increase the thermal differential created. Or run it backwards. Apply heat or cold to the relevant face and produce a current. Amazing for science projects and experiments. Practical for coffee warmers, beer coolers and mini-refrigerator or warming oven applications. They come with a datasheet. Large is 1-9/16" sq. x 3/16" thick and draws 6A and small is 1-1/4" sq. x 3/16" thick and draws 3A.

Lazy Scott Bearings

Never seemed fair to nail the "lazy" tag so permanently on the "Susans" but that probably has no "bearing" on the issue. Also called turntable bearings, they are the square, flat ball bearing devices YOU bolt between two flat objects to achieve rotation. Like that spinning center section of a Chinese restaurant table. We had these in surplus once and they were quite popular. To our chagrin, we discovered they could be bought commercially for the same price. So we did. Look Smart

Safety is as safety does these days, and we recommend these high-quality, safety goggles, unvented for maximum splatter protection and ANSI Z87.1-rated. Measure 6" wide x 3-5/8" tall x 3-1/8" deep. The black elastic strap is adjustable, and the flexible sides and top allow for a better seal against the face. One size fits most adults, and Pat, the boss around here, slipped them over his glasses, no problem. Goggles are sealed in a bag and the vendor says sterile if un-opened, which is good since you just washed your hands. We've seen them selling for \$9-plus in the Ama-zone. Our price is better, right? Our bulk pricing makes them great for the workplace or schools.

Can You Not Hear Me Now?

These Ear Buddy® noise reduction headphones for kids have a 27-DB reduction rating. We'll pick a pair in blue, purple or green because ears don't care. These aren't adjustable and will fit only a small noggin—which is why we say they're for kids, not adults—but that small noggin will enjoy some sweet noise-reduction sound, we can tell you that much.
